

# NGVEXPO CHINA 2014

Beijing National Agriculture Exhibition Center

Beijing China | September 24-26

## Clear Air Needs Clean Energy

### Organizer

China Industrial Gases Industry Association

### Produced by

AIT Events Co., Ltd.

### Co-Organizer

China LNG Association

China National NGV Engineering  
Research Center

## ***International Partners***

- International Natural Gas Vehicles Association
- European NGV Association
- Italian NGV Association
- Asia Pacific Gases Manufacturers Association
- Korean Gases Safety Corporation
- Ukraine Association of Industrial Gases Manufacturers
- All India Industrial Gases Manufacturers Association
- Korean High Pressure Gases Cooperative Union
- India Cryogenics Council

## ***Special Endorsement by***

- General Administration of Quality Supervision,  
Inspection and Quarantine of the People's Republic of China
- State Administration of Work Safety
- National Energy Administration
- China Petroleum and Chemical Industry Federation
- National Technical Committee on Gas Cylinders of Standardization Administration of China
- National Technical Committee on Gas of Standardization Administration of China
- Asia Pacific Natural Gas Vehicles Association
- NGV Italy
- China NGV Engineering Technological Research Center
- Sichuan Clean Energy Vehicle Industry Association
- Zigong City Clean Vehicle Industry Association

## About NGV Market in China

In the past ten years, China has become the biggest market for vehicles industry with its annual output over 10 million family cars in the world. However, what comes along are the excessive energy consumption and environmental pollution. A solution is urgently required and the migration to clean energy vehicles and the effective applications are now becoming the critical issues for Chinese Government as well as for its neighboring countries.

As the capital to China, Beijing is pioneering in this migration and released a decision in 2013, that Beijing will put 10 thousand natural gas vehicles into operation, including taxis, buses, sanitation trucks and the driving coaches' vehicles. Each year from 2013-2017, Beijing will put no less than 30 thousand natural gas vehicles into use. Hence, we decide to head back to Beijing with NGV, China 2014 which is also a result of marketing survey from our exhibitors and partners.

## Numbers Have Power! Records for IG, China 2013 & NGV, China 2013

### IG, China 2013 & NGV, China 2013:

#### AN UN-DISPUTED SUCCESS

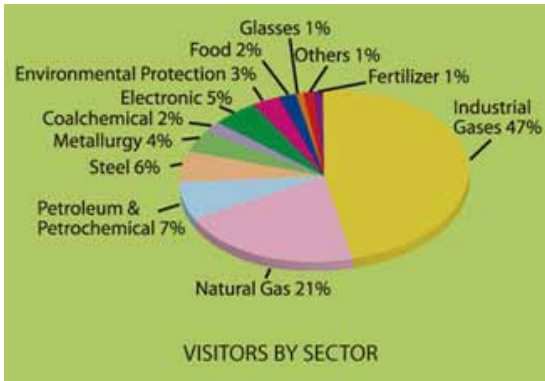

IG, China 2013 & NGV, China 2013 were successfully held in the beautiful city of Chengdu, China from November 20<sup>th</sup> to November 22<sup>nd</sup>, 2013. During three days' event, there are:

- ◎ A total of 300 Exhibitors from over 20 countries
- ◎ A total show space of 30,000m<sup>2</sup>
- ◎ A total of 15,000 professional visitors from 20 countries

<b>82.27%</b>	<b>71.3%</b>	<b>87%</b>
of the visitors have the power to make the purchase decisions.	of the exhibitors successfully signed purchase contracts	of the exhibitors intend to exhibit in 2014

## On the visitors' side

## Who Should Exhibit

**1. NGV Manufacturers and Vehicle Conversion: Passenger Cars and Buses, Taxi, Wagon, Truck, Tractor, special vehicles**

**2. NGV Engines and Other Accessories:**

1) NGV Engines:

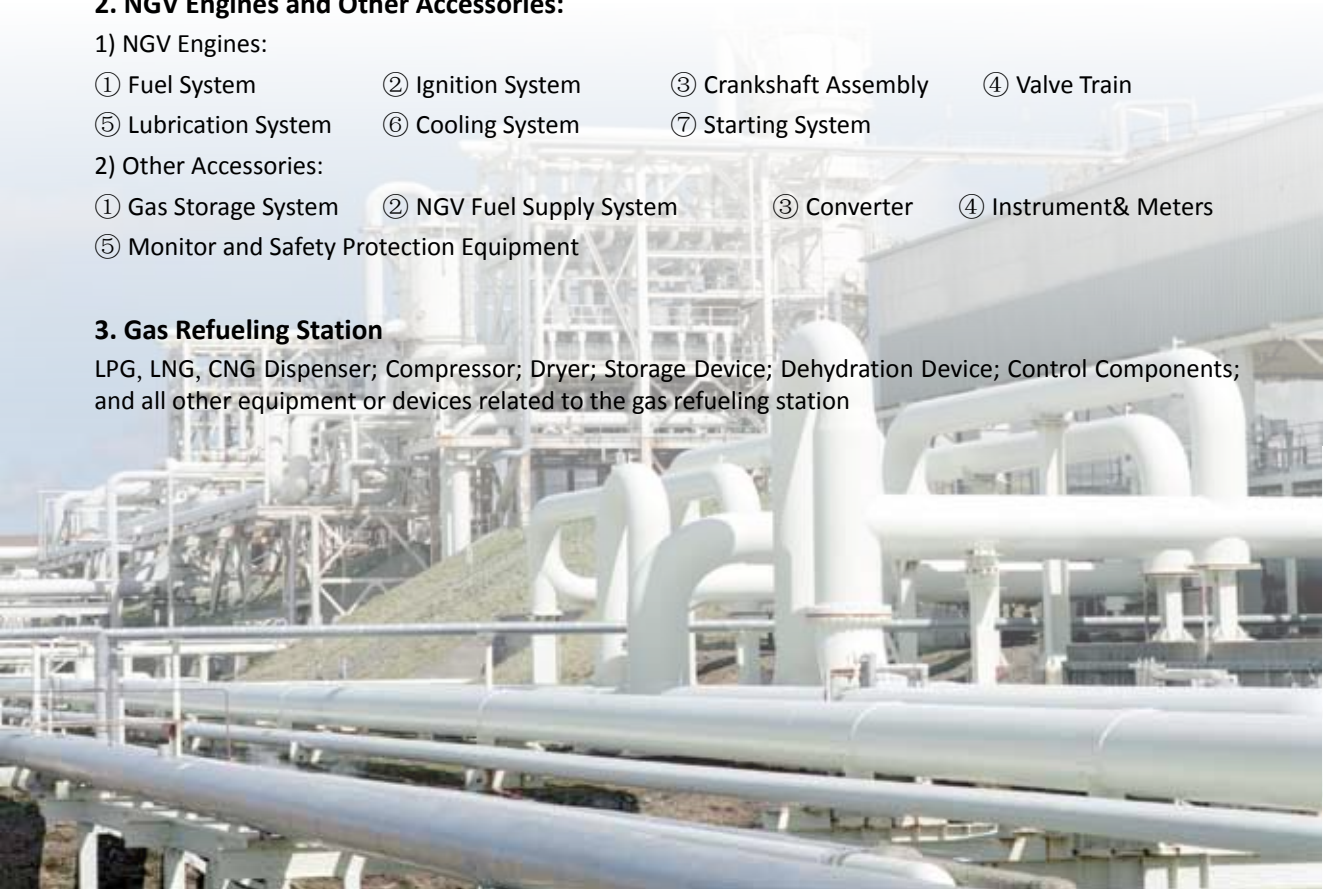

- |                      |                   |                       |               |
|----------------------|-------------------|-----------------------|---------------|
| ① Fuel System        | ② Ignition System | ③ Crankshaft Assembly | ④ Valve Train |
| ⑤ Lubrication System | ⑥ Cooling System  | ⑦ Starting System     |               |

2) Other Accessories:

- |   |                          |             |                       |
|---|--------------------------|-------------|-----------------------|
| ① Gas Storage System                      | ② NGV Fuel Supply System | ③ Converter | ④ Instrument & Meters |
| ⑤ Monitor and Safety Protection Equipment |                          |             |                       |

**3. Gas Refueling Station**

LPG, LNG, CNG Dispenser; Compressor; Dryer; Storage Device; Dehydration Device; Control Components; and all other equipment or devices related to the gas refueling station

## China NGV Forum

China NGV Forum is a well-informed platform with the contents of the industrial gases industry development situation in China, the release of new products and new technology and new application for NGV industry. It will be an effective platform for the communication and technical exchange among the experts, exhibitors, trade visitors etc.

For more information on China NGV Forum 2014, please visit [www.ngvexpo.com](http://www.ngvexpo.com)

## Booth Rental

### ▲Option 1: Shell Scheme: 3m×3m RMB 3,600/ m<sup>2</sup>

Shell Scheme Covers:

Stand No. & fascia board with company name

Carpet inside the booth & participation

One information counter, Four Folding chairs , One Round table, One Free Standing Literature Rack and one dustbin

One 5A/220V socket & two spotlights

### ▲Option 2: Raw Space: min.18 m<sup>2</sup> RMB 3,000/ m<sup>2</sup>

**There is not any facility for such kind of stand, so the exhibitor can choose the construction team by selves or ask the organizer to recommend.**

All exhibitors will enjoy the following free services:

- Free logo advertising and news release on the official website
- Free company listing of up to 100 words in the Show Guide
- Direct mailing to targeted companies including the buyers from previous show
- Planned overseas promotion
- Meeting with relevant official authorities for the industry
